An ex-library book and may have standard library.

The Imaginary Horse Series Horses are popular animals that evolutionists have chosen to use to validate evolutionary theory and indoctrinate others to the idea of macroevolution. Propaganda for horse evolution and thereby macroevolution is found in scientific journals, textbooks, books, magazines, encyclopedias, museums and television so there is no need to repeat it here. The Nature of Horses - AMNH The Nature of Horses . No other animal can match the contributions that horses have made to human civilization. What makes horses such good partners for people? Horses cannot learn the way people do; training horses involves working with their natural instincts, not trying to change them. But fortunately for us, most of the qualities that make.
